

BassDrumBone is available for trio performances in the US & Canada during 2017:

We are available generally for festivals and will, when feasible, organize additional concerts in a tour. For now the periods are open. All three of us have agreed to temporarily suspend our independent projects in favor of featuring BassDrumBone performance bookings during 2017. Please let us know soon if you are interested.

BassDrumBone recorded material for a new double CD in NY in August 2016. The release date for the new CD will be in late November 2016. European tour dates will occur in the summer of 2017 and also in late October and early November 2017.

"The story keeps unfolding for this fabled trio that released its first outing in 1978. With rest stops along the way, the musicians' synergy remains as a source of amazement, coupled with their perpetual creative sparks that sculpt a route embedded with fresh concepts and supreme musicianship."
